EDUCATION

Senior Secondary Cerification

Divine Destiny Secondary Sch.

2015-2021

Makurdi, Benue State, Nigeria

B.Sc Computer Science

Kebbi State University

Expected Graduation: 12 ,2026

Aliero, Kebbi State, Nigeria

PROFILE

As a dedicated student, I believe in technology's potential for positive community change. My passion is using tech skills to create innovative solutions for real-world challenges. Skilled in Frontend Development with HTML, CSS, and JavaScript, and experienced in backend development with Python, I focus on user-friendly interfaces. Committed to elegant solutions, collaboration, and driving meaningful change with tech skills alongside others.

LEADERSHIP EXPERIENCE

Google Developer Student Clubs (GDSC) Lead   2023-Present

Kebbi State University of Science and Technology

- Spearheaded the establishment of the first Google Developer Student Club (GDSC) at my school.
- Organized and led workshops, hackathons, and tech-related events to foster learning and innovation among students.
- Mentored and guided students in developing their technical skills and pursuing projects.

WORK EXPERIENCE

Software Engineer (Intern)
Oasis InfoByte   2024
Web Development Intern

- Participated in the creation and maintenance of dynamic websites using HTML, CSS, and JavaScript.
- Assisted in backend development tasks using Django.
- Conducted testing and debugging to ensure website functionality across different browsers.

Software Engineer (Intern)   2022-2023
HngxAfrica

- Contributed to the development of responsive and user-friendly frontend interfaces.
- Implemented design mockups using HTML, CSS, and JavaScript.
- Worked closely with UX/UI designers to ensure seamless integration of design elements.

Software Engineer (Intern)
Code Alpha

- Participated in developing OCR Python applications.
- Collaborated with team members to troubleshoot and improve existing Python code.
- Assisted in testing and debugging Python scripts for optimal performance.
